Dear Friends,

We are excited for this year's production sale! We thank God for another year to get to work in this industry and with all of you.

It is an exciting time to be in the cattle industry, as prices are reaching new highs. With that, it has never been more important to have confidence in the quality of your breeding stock. We strive to breed the best Hereford cattle available for the commercial cattlemen's bottom line. As overhead costs rise, extra pounds of calves to sell, extra quality on the grid, and extra breeding rates have never been more important.

When you buy genetics from us at Sandhill, we have done our best to provide you the "usual" strengths of the Hereford breed and have added in traits that are harder to find. We let you take advantage of usual Hereford traits like docility, structural soundness, cross breeding and fertility. It has taken years, but we have added physical thickness, calving ease, udder quality, growth, and carcass quality. We are confident that you will have a hard time finding a better combination of these traits anywhere else.

Purchasing genetics is an investment, and we want you to feel confident that our cattle will fit your needs. Please give us a call. When we learn about your operations, we can more effectively predict what our genetics will do for you. This catalog is packed with customer testimonials and success stories that came out of relationships that we have built. When a customer calls and says that the cattle performed like we said they would, it makes all our hard work worth it.

Sincerely,

Kevin and Tyler Schultz

- Insight was the top-selling bull in our 2022 sale. Our goal to always move forward, Insight a potent sire, Foresight and D03. D03 is quickly becoming the dam of herd sires.
- We used Insight to combine performance, carcass merit and maternal traits.
- After seeing his full sister in production, she quickly moved to our donor program. We expect the same udder quality, easy fleshing and fertility from the daughters of Insight as we see from the full sister and daughters of D03.
- Maternal brother to SHF Headstrong H315.
- Being tested in the National Reference Sire program.
- 20 sons will sell.

- New Standard was introduced into our AI program for several reasons. His breed leading maternal and carcass merit indexes, acceptable CED, physical attributes, and his dam is outstanding.
- We expect the New Standard sons to sire moderate framed, big topped cattle with the genetic potential to hang well on the rail and make great replacement females.
- 22 sons will sell.

- Houston is the No. 1 sire for 2024 registrations in the American Hereford database.
- We have seen the added performance we get with Houston, as seen in his top 1% growth numbers. But the real benefit of Houston will be seen as you get daughters in production. Ours are calving now, and we could not be more pleased.
- Big growth, generally deep cherry red, and length of body will all be expected when you purchase a Houston son in this sale.
- 14 sons will sell.

- As we have use Long Run the past 2 years, he is truly enhancing our drive to provide more maternal traits, increase CED and carcass quality.
- As we always feed out our nonbreeding cattle (steers and cull heifers) this increases the accuracy of all our cattle, the carcass EPDs for Long Run continue to improve.
- Maternal brother to New Standard.
- 16 sons will sell.

• If you like to study ratios, this bull started 17% below average at birth and was 8% higher at yearling. This bull possesses Calving Ease like a good insurance policy, you might not need it that high, but it's nice to have it when needed. Besides with his top 20% growth, you are not giving up anything. Cow family is double bred Oksana, there is not enough room to tell you how much that has meant to us here at SHF. Selling full possession and 1/2 semen interest.

• This bull looks much like SHF Legion, the top selling bull in last year's sale. But, more than that, he deserves your consideration on his own merit. CED, growth carcass and maternal, Marlin has it all. His dam traces to the awesome donor D81 that is working in the Baumgarten herd in ND. Twin to a bull, raised as a single.

• This is the top performing bull in the sale, based on actual WW and YW. His dam is a smaller statured cow with a load of milk and performance. She is a maternal sister to the breed's leading carcass bull, Validated. Use this bull to sire lots of pounds with quality when you hang carcasses on the rail. He is a carrier for DB. Dam sells as lot 150.

- Meade was a couple days too young when we scanned, that's why he only has actual numbers, no ratios. But, that fine, he will grow and sire some top performance cattle and make lots of quality. Top 1% for CHB index.
