First embryos available from our newest donor cow, J Lo.
 She goes back to many champion and division champions at JNHE. Her dam, HH Pearl 942, was nicknamed "J Lo" and so it is only fitting she carries on that successful name.
 Pearl 942 was a 2-time Ohio State Fair Champion Hereford heifer, and her progeny have not disappointed.
 You will see J Lo's first calf by Makers Mark in our show string this year.

- This natural daughter from our best donor concentrates the result of three generations of embryo breeding.
- Thirteen of the 20 EPD measures are in the top quartile while 9 of these are 10% or better. Her pedigree is a composite of the best western origin Herefords.
- Mary's dark red, pigmented eyes present a good Hereford look.
- After AI breeding to Cuda on 7/25/24, we selected her as a potential IV donor. The result was 22 Vytelle embryos from a single flush. We can handle a limited amount of a good thing and offer this lady as a donor.
