Online Bidding: Online bidding will be available via **live-ag.com**

We encourage you to register 24 hours prior to the sale to make sure approval has been completed. Questions call 817-533-6699.

Phone Bidding

If you prefer to bid over the phone or leave an absentee bid, please contact Chad or any of the sale staff ahead of time so that one of the sellers, representatives of the sellers, or industry representatives can meet your needs.

Bull Viewing Before Sale

We encourage you to come look at our bulls on or before sale day, located at the ranch and you are invited to view the cow families prior to the sale day in Musselshell, MT. Videos of the bulls are available on our website and Live-AG.com

Bar Star Breeding Guarantee

All animals in the sale are guaranteed breeders. All bulls will be covered with a first breeding season guarantee for reproductive injury. Breeding season is defined as the first 60 days following the first turnout of bulls. 50% of the value of a bull that encounters reproductive injury (sheath and testicles) will be given as a credit towards a future purchase or towards a replacement bull if one is available. Any injury must be diagnosed by a seller approved veterinarian. Please notify us as soon as possible should this occur, and prior to the injured bull being sold for salvage. All claims must be made by September 1, 2025. This is not an insurance policy, nor does it cover mismanagement, neglect, or death.

BID FROM
ANYWHERE with

LiveAg
PUREBRED

- 1. VISIT LIVE-AG.COM**
Navigate to the "Purebred" tab, located in the main menu. Select the auction of choice.
- 2. LOG IN / CREATE AN ACCOUNT**
Select the "Login or Create an Account" button. Fill out the required fields to bid online. Agree to the terms of service, and finish with the "Register" button. An account is not necessary to watch an auction.
- 3. REGISTER TO BID**
Once logged in, find your sale of choice and click "Register to Bid". Agree to the terms and conditions, and click the "Register" button. Your request will be approved in a timely manner.
- * CALL OUR TEAM WITH ANY QUESTIONS**
We're dedicated to ensuring you have a positive bidding experience. Please call 817-533-6699 with any questions.

Selling:

41 Registered Hereford Bulls — Yearling & 18-Month-Old

30 F1 Black Baldy Open Replacement Females

BarStarCattle.com

**NOTE: Download Directions to Our Sale
Before You Leave Home.**

Sale Day Location: Bar Star Cattle Ranch

If you enter our address: 290 Jensen Road, Musselshell, MT 59059

If using GPS — **DO NOT** let it take you to Fishel Creek Road.
There is limited to no cell phone service.

Delivery

We have 3 favorable delivery options:

1. Take your bull home sale day for \$100 off purchase price.
2. Bulls will be delivered starting April 1 on scheduled loads.
3. If bulls are unable to leave sale day or by our scheduled load, we will keep your bull(s) for a fee of \$4/hd/d until you can pick them up by May 1, 2025.

Volume Discount

We do offer a volume discount. 3 or more bulls receive a 3% discount.

Bar Star Semen & Genetic Retention

We are very excited about the bulls in our program offering, therefore we reserve the right to retain a one third semen interest and/or in-herd semen use on any bulls we offer for sale. Several bulls in the sale will have a higher interest kept and announcements from the auction block take precedence. Collection will be done at the buyer's convenience and seller's expense.

Terms of Sale

Each animal will be sold to the highest bidder and becomes the responsibility of the purchaser as soon as sold. The auctioneer will settle any disputes from the auction block. The cattle sell under the standard terms and conditions as recommended by the American Hereford Association.

Insurance: Insurance will be available sale day. Any bulls left for semen collection or an extended delivery, must be insured or a waiver of liability signed on sale day.

Bull Care: Bulls are developed at the ranch on Hubbard feed bull development pellet, and dry matter is straw/long stem grass hay and bunk fed to help improve docility. Bulls are grown until delivery at no cost to the buyer. We follow a vaccination protocol developed specifically for our program based on our veterinarian and our Zoetis representative's recommendations. Bulls have to pass a breeding soundness exam before delivery.

Heifer Safe: Certain bulls in this listing are marked as safe for use on heifers. This symbol represents the bulls' data to be heifer safe.

RANCH DIRECTIONS / See note above in yellow box.

From Forsyth: (1-½ hour drive time) Take HWY 12 to Musselshell. From Musselshell go south on HWY 310 for 6.5 miles to Hawk Creek Road. Turn right onto Hawk Creek and follow for approx. 7 miles to Jensen Road. Turn at the Bar Star sign into our driveway.

From Custer: (1 hour drive time) Take HWY 310 to Hawk Creek Road. Turn left to Hawk Creek and follow for approx. 7 miles to Jensen Road. Turn at the Bar Star sign into our driveway.

From Billings: (1-½ hour drive time) Take HWY 87 to Roundup, then HWY 12 to Musselshell.

From Musselshell: Go south on HWY 310 for 6.5 miles to Hawk Creek Road. Turn right on to Hawk Creek and follow for approx. 7 miles to Jensen Road. Turn at the Bar Star sign into our driveway.

105	1.60	1.60	93	0.023	0.76	0.34	440	542	171

We bought a portion of his sire in 2019 as a yearling and the bull resold through Huth's dispersal in November for \$75K as a coming 5-year-old!

With a DISTINGUISHED proven pedigree on both sides for maternal quality, and a scripted EPD profile as complete and well written as any with unique highlights of top 1% teat and udder while still being top 10% carcass, top 3% \$CHB and a top 20% \$BMI, we feel this bull can make a major impact in the breed. Without any Revolution, Endure, 10Y, 8Y, M326 ... the list goes on and on ... this one can be used on a lot of bloodlines.

Member of our 2025 Spring Bull Calf Champion Pen at the NWSS 2025. He's not just big numbered and unique pedigreed, he's the Bar Star Kind for muscle, moderation, and build.

Homozygous polled with a herd bull head and a set of pigmented tucked in eyes. We will be using him heavily in our own program.

Terms to be announced sale day.

It's no secret that we like them big middled and stout. Well this one is like we have never made before or really even seen.

His dam, 410, has placed over a dozen herd bull sons in registered operations and many sons that went to commercial cattlemen all across America. She's affectionately known as the herd bull producer. Is this the most unique son she has produced yet? We will let you be the judge on sale day!

Terms to be announced. We'd like to incorporate him into our program in one form or another due to his unique combination of power and EPD profile. Top 15% WW, 17% YW, 7% SC, 17% SCF, 21% Milk, 2% and 4% U/T, 12% REA and top 1% on \$BMI and \$CHB. Rarely do you get all this while being top 24% for smaller mature cow size.

102	1.30	1.30	98	-0.007	0.73	0.10	330	405	156

A double red eyed looker here. Awesome hip and a huge stifle.

He's got great feet, sturdy bone, and the angles of his structure are impeccable. A black tailed bull that the old timers would say equates to fertility, I'll trust his fertile type and big perfectly shaped testicles first.

Good enough for a purebred producer but built to work any direction he's asked.

Top 21% WW, top 27% YW, top 11% REA, and top 8% \$CHB! We will stack him up phenotypically with just about anything.

90	1.30	1.30	114	0.033	1.04	-0.02	472	549	168

Here comes another chip right off the block for massive abundant muscle (maybe as big of hip on a yearling as we have EVER made), incredible phenotype, and elite numbers. Whopping 1.04 REA puts him well towards the top of the breed. Top 10% growth, big milk and a very consistent script tallies up to a top 7% \$BMI and a top 4% \$CHB. Where do you find so many combo bulls that have big profitability indexes and the phenotype to hold up in big country and look good doing it ... Musselshell, MT! Homozygous polled. Full brother to Lots 2 and 3. Act. BW ET; Adj. WW 662 lbs.

76	1.40	1.40	75	0.043	0.46	0.15	436	518	126

The only Red Cloud bull calf we had this year, and we have an incredible set of females by him. His dam we can write a book on, she's still in production at 11 and has impacted so many herds across America, Canada, and Mexico. Great big \$441 BMI and that huge rib cage on this one in a moderate dark red package will really draw your eyes to him. Homozygous polled and uniquely bred. Moderation, muscle, and profit built into a homozygous polled bull that can go about any direction. Another one that is good enough to breed purebred cows or cause a down pour of profitability in a commercial program. Everyone loves a rain cloud! Act. BW ET; Adj. WW 693 lbs.

115	1.30	1.30	91	0.023	0.56	0.03	403	494	134

In last year's sale the Forward sons were extremely popular and the reports from buyers post turnout were excellent. This is the only one in this year's offering but we will once again have more in the future. You won't lack libido on this one. He thought he was ready to breed cows all summer long. He's got the 410 herd bull look to him and a flexible, athletic, muscular build. He's the Bar Star kind for muscle, moderation, and structure. Couple that with top 1% WW and YW EPDs and a nice top 25% combo of \$BMI and \$CHB and this one is quite useful. Act. BW ET.

Good looking Prominent son that's got a great back and hip shape. Here's something you won't read in too many black bull footnotes: Check out the MASSIVE forearm on this bull! Forearm can be directly correlated to ribeye size and that would be true for this one as he's got an amazing back and loin shape, and genomics verified this pushing him to the top 8%. He's still maternal in his build, has the corresponding top 4% \$BMI to prove it, and I'd love to see the females that this one produces. We are excited about the first set of Prominent daughters after talking to our friends the Wiese family that owns the bull. Big growth and big top 16% \$CHB. Maternal and terminal traits, YOU CAN HAVE THEM BOTH!
Act. BW ET

Shapely 18-month-old cow bull with another set of big indexes. He's not as dark as his half brothers but has the good looks and muscle that his dam consistently provides. Two great cows in this ones pedigree and a great build. The combo of maternal and terminal indexes we strive to shine through with this one with excellent pre-weaning growth.
Act. BW ET

This one is NOT for a small breeder that only has one or two bulls. He's a cowboy bull that if you do everything on horseback you will be fine but he's not a big fan of people on the ground. He's not our typical gentle gentle cattle. Red spot on his face. Double good looking. Homozygous polled super athlete that's hot numbered. Top 6% WW, top 12% YW, Huge top 8% \$BMI and solid \$CHB.

This one found lots of friends in Denver with his raw performance, striking good looks, great feet and legs, and massive body type.
This bull gained 7.5 lbs. a day through the month of December!
Out of a dam that will calve this spring at 11 and has produced some great cattle over the years.
Incredible disposition on this one.
Member of our 2025 Spring Bull Calf Champion Pen at the NWSS 2025.
His EPD numbers match his actual performance and phenotype with an incredible top 3% WW, top 1% YW, top 16% SC and great SCF and Milk. Carcass wise he's top 1% CW, 2% REA; top 25% MARB. Add up all the good it calculates to an incredible top 1% CHB\$ and top 8% BMI\$.

There is always give and take in anything in life. This one ended up coming back a DB carrier. If he only sees black cows during his service life, there won't be any problems. On the other end of the spectrum there are elite numbers in his EPD profile and if you have some black cows that you wanted to stouten up, look in here. This thing has incredible bone and foot size, dark beautiful color and is red necked, awesome muscle and body and charts an unbelievable over \$500 \$BMI to put him in the top 2% of the entire Hereford breed! His top 1% Milk, top 10% growth, top 4% REA, all tabulate to a top 6% \$CHB. Its hard to add that much good up.

Out of our up and coming star Divergent and a first calf full sister to Fresh Prince/Rebellion etc. We LOVE efficient cattle around here and this one knocked it out of the park with her first calf, weaning close to 70% of her body weight.
While EPDs don't agree we would say this one should be safe on heifers with his actual birthweight.
We love this one's type and feed efficient build, gaining fast while on the cow and being moderate in size as he matures = profitability in all aspects of a cow calf operation.
Red cap all the way passed his poll but somehow missed his eyelids.

A super heifer safe bull!

Updated EPDs should be available on sale day.

Here's a super big bodied Divergent that's held up his profile in the AHA database. Regardless we know he will be heifer safe and his Distinct dam should bring plenty of carcass and profitability indexes to the table.

Act. BW 61 lbs.; Adj. WW 600 lbs.

[Lot 20]

119	1.30	1.30	73	0.033	0.64	0.20	287	374	129

Another Divergent with a big growth numbers in the top 10% of the breed for those EPDs.

Big carcass numbers to boot.

Heifer safe as well even though his EPDs ticked up a bit after genomics, we are confident this one will be easy calving with his actual weight with a good head and shoulder shape.

Rarely do you find one this light on day 1 with that big of EPD profile for growth.

Act. BW 61 lbs.; Adj. WW 600 lbs.

[Lot 21]

BAR STAR 2196 DIVERGENT 4013

Heifer safe.

This one has been one that the boss lady has

loved since day one.

Don't let a white leg distract your eyes from all the good this one has to offer. Let the black cows take care of that.

Here is one big muscled, easy keeping, good looking bull that has a lot of parts and pieces that most bulls sold this year don't have.

Cool red spot on his head that was supposed to go over his left eye, makes him even harder to forget.

Make sure to watch the video of this bull or look him up on sale day. He was a bit camera shy due to his incredibly gentle nature. He's incredible in person.

Act. BW 70 lbs.; Adj. WW 690 lbs.

[Lot 22]

Very unique and as good of a CED and BW combo as we have to offer.

This one has a great paint job and a natural calf out of Hennessy's donor.

Red up his jaw touching his eyes on both sides, with red front feet, and in a moderate package that should be an outstanding heifer bull.

Act. BW 73 lbs.; Adj. WW 600 lbs.

Don't let EPDs fool you here.

With an actual WW over 800 he's one of the top pre-weaning performers ever for us. Top that off with a cocky phenotype and a massive back and hip.

If you enjoy attractive cows to feed all winter this one should make the kind that your neighbors will slow down to look at.

Harrison has an incredible cow herd built and we really like this one! He's homozygous and his dam is a maternal sister to the 714 donor but by Smoke Stack! More traditional Hereford in his markings and great hair coat. Note he's the only son of Magnified in the sale which makes him double bred Revved Up who was an incredible female maker. He's got a ton of preweaning growth in the top 18% of the breed and a solid YW. Great carcass numbers with a top 10% marbling tabulates to a top 9% CHB.

Act. BW 77 lbs.; Adj. WW 617 lbs.

Homozygous polled! A stout, moderate "Rebel" out of a cow we purchased out of the famous NJW program in Wyoming. He was weaned off a ten-year-old cow. Great body and balance and we can't say enough about the Rebellion females that are coming into production here. Longevity is an unspoken driver of profit that everyone selling other breed bulls don't want to talk about ... but we do!

Act. BW 94 lbs.; Adj. WW 600 lbs.

Someone got a little happy with the dehorning paste at tagging and took his antlers. I'd have loved to see this rugged and masculine bull with horns intact! Absolutely beautiful cow out of Smoke Stack that this one is out of. Should be generations of great feet stacked in here. Another solid SBMI bull while being big hipped, masculine, square made, and dark red. Not too many horned genetics this dark out there.

Act. BW 91 lbs.; Adj. WW 624 lbs.

We do raise a few horned ones and this one is pretty neat. He's got a great big red eye that attaches to his cheek, is red-necked and a red sheath event! Out of a beautiful uddered power cow and one of our vet's favorite herd bulls here. Does have small stubs where we didn't get him pasted that great, in the future we hope to leave the horns on all of the bulls and only paste our females. He's HUGE testicled and his daughters should be fertile fertile with that top 10% SC, top 2% Sustained Cow Fertility, combine that with elite udder and teat EPDs and a whopping top 5% \$BMI all while having solid marbling. So much good in these horned bulls without antlers.

Act. BW 92 lbs.

Incredible body depth and big big testicles on this stout made, good footed rascal. What's not to like about a big ribbed square made, older aged bull to turn out? Then top it off with him being out of an outstanding cow as reflected by his 2 and 1% udder and teat EPDs. It just doesn't get too much better after you look at his EPDs and see one of the biggest birth to yearling weight spreads in the entire offering. Sustained cow fertility in the top 5% of the breed with big marbling is hard to obtain. Tabulates to a top 7% \$BMI and top 24% \$CHB.

I can't imagine how good this bull would look if he didn't spend 90% of his day walking the fence belling, looking for cows to breed. Big libido in a gentle, still very good looking package with ELITE NUMBERS. Homozygous polled and out of a full sister to Fresh Prince, Rebellion, etc. He's got the gene markers that turned a very good EPD profile into as good as we could have dreamed: Top 24% CE, top 30% for both light birth and big weaning, top 23% for YW all while being in the top 17% for cow fertility and top 31% for smaller cow size. It just keeps going with the top 1% of the breed for SC, good milk, and udder and teat EPDs in the top 9 and 4%. Then onto carcass with a top 14% REA and 17% marbling all tabulate to a big \$CHB in the top 12% and all that maternal kicks out to a \$BMI in the top 14%.
