TERMS AND INFORMATION

The embryos and semen selling in this sale are our most up to date genetics. They are not old embryos or semen that we want to move along. Several of these donors have pictures of when they were bred heifers. These two year olds have now calved and we are very proud of them maternally! You can buy with confidence that they are our very best! This is the Churchill program! In our opinion, right now, high quality embryos like these represent a better value than other class of live cattle on the market. You can't buy these embryos with these genetics anywhere else. Our Churchill genetics have been topping bull sales all across the country this spring because they work for breeders and ranchers. Here is your opportunity in the spring of 2025!

Lots 1, 17, 21, 22, 23, 31, 35, and 36 are eligible for Canada.

Embryos and semen sell by the embryo or straw and are so many times the money. Joe Goggins will auction each lot off in catalog order so it will be a snappy sale.

After the sale the buyer will receive an invoice by email from Churchill Cattle Co. After payment is received embryos and semen will be released. The buyer pays for all shipping costs.

There is no guarantee on the embryos. Every embryo was made by Trans Ova, the best in the business. The two biggest variables in pregnancy rates are the quality of the implant technician and the quality of the recips. Both factors are completely out of our control. For best results with IVF embryos use a

technician that has a proven track record of success with IVF embryos. There are plenty of these now nationwide. In your recips make sure they have had a good heat, are gaining weight but not obese, and are on a good mineral program and you will do well. On our ranch most of the time we get 50% or better conception using these guidelines.

One (1) IVF Flush

The dam of herd bulls and mother of donor cows!

Her sons have averaged over \$20,000 and her daughters are fabulous with ideal udders.

She also has a great preg rate so there is very little risk in this flush.

7098 recently calved so the IVF flush can be done in May and we guarantee six (6) embryos and the buyer gets all the embryos.

The buyer pays flush expenses.

Lot 15 Four (4) Female Sexed

We were just itching to make this mating to create females that will be very powerful with lots of red and pigment!
First Lady breeds more power than any donor we have and 0159 breeds as much eye appeal as any sire so this should be very exciting!
