

FIELDS OF GOLD

FEMALE SALE

Saturday, May 24, 2025

SHELBY, NC

Welcome!

I have read many of these welcome letters throughout the years, but have never had the privilege to write one. This is a day we have worked towards for many years now and I am so excited to welcome you to the 1st annual Fields of Gold Sale. I hope you will consider this our personal invitation to the Preview Dinner on Friday night and the Sale on Saturday.

Sound genetics are at the core of our breeding program. At Four B Farm we spend a lot of time considering the qualities and traits that will most benefit our cattle herd. Sire and female selection along with mating decisions has been a tricky task, always trying to fill in a hole without creating another one. I tend to gravitate toward bigger is better, but have learned throughout the years that this is often not the best choice, especially for our environment. Yes, we want them big and we want them heavy, but our foremost goal is for our herd to thrive and be productive.

I am confident you will find these cows to conform to the strictest standards. We have high expectations here at Four B Farm – for our family, for our employees, and for our herd. You will not find a harder working group (both in and out of the pasture!) Rest assured that when you take a 4B cow home it's like putting money in the bank. If you are looking for sound genetics that have the maternal characteristics that are desired in the Hereford breed along with consistently high carcass quality, please come pay us a visit. At Four B Farm we strive to make sound breeding decisions that have years of influence beyond each year's calf crop.

I have worked a lifetime for this moment and will continue to work hard and ensure we are impacting the Hereford breed with strong genetics and sustainable bloodlines. This sale, and the farm's program, will continue to grow in the coming years to have more 4B prefixed cattle in the offering. That being said, these females we are offering have helped us build our cow herd nucleus and can help you do the same. They are proven in our herd and will continue to work hard for you. Remember that cattle from the Southeast thrive wherever they go!

We hope you'll make the Southeast your Memorial Day weekend destination. Join us on Friday and Saturday, then take the short trip down to the Mead/Whitehawk Sale on Sunday and Monday. With plenty of hiking, shopping, and cattle to see there's something for the whole family!

Whatever you take away from this first sale, just know that we are passionate about Herefords and believe that your success is our success. We stand behind every lot offered here and can't wait to welcome you to the farm.

Sincerely,

Bryson Westbrook and Family

Belle, Bennet, Bryson, Wren, Bonnie & Beau Westbrook

Online Bidding

If you are unable to attend the May 24th sale, you can log onto **www.LiveAuctions.tv** to follow the progress of the auction with live audio and video. Real-time live bidding for this sale can be done via the internet through **LiveAuctions.tv**. Live audio and live video will allow buyers to bid on animals as if they were present at the sale.

To bid, buyers must create an account and request a buyer number, preferably prior to sale day, at **www.LiveAuction.tv**. Instructions are available there to walk you through the account setup process.

Contact the LiveAuctions staff prior to, or during the sale at 817-725-8595, with any questions.

Sale Day: Katie Colyer 208-599-2962

- I appreciate a proven bull used across many different types of cows. B279 if you study his EPDs, has one of the best proven profiles you can ask for. His TEAT and UDDR scores, along with other traits, made him an easy choice for us.
- Bred AI to Monument J338 on 11/20/24, then pasture exposed to Mendel 1471 from 12/20/24 to 3/24/25. Safe in calf.

 - Character epitomizes the art of breeding cattle! The line breeding in 178J sets him apart from any other heavily used sire and he has proven to be a true breeder. We have yet to receive a report on a bad calf as his calf crop is very consistent and uniformly good. In fact, we have heard from every breeder that has used Character that his calves are at the top of any sire group. This comes from the locked in phenotype and performance in his line breeding. Don't pass on an opportunity to add character to your herd.

• No, you're not seeing double! These 909B daughters are the most consistent ladies to walk our pastures. All 909Bs have that extra rib without losing chest floor and gut depth. This is another high capacity cow with a good to great udder. She's dark red with good eye pigment

• Bred Al to Character 178J on 12/11/24, then pasture exposed to Monument J338 from 12/20/24 to 2/24/25. Safe in calf.

- A favorite among many visitors and astute cattlemen. Very powerful in her hip and rear with a perfectly razor-sharp front end. 906 is free of all defects and should be flushed in her new home.
- Bred AI to Character 178J on 12/11/24, then pasture exposed to Monument J338 from 12/20/24 to 2/24/25. Safe in calf.

- We are glad to have this cow to offer as 4013 tends to raise herd bulls. She is one of our favorites at the farm because she always brings in one of the heaviest calves.
- Pasture exposed to Monument J338 from 12/20/24 to 2/24/25. Safe in calf.

- Pepper faced 225Y daughter. 225Y has been a very good female producer for us at 4B Farm. This daughter's ideal frame, structural correctness, and functional udder is a testament to that.
- Bred AI to Merit 21134 on 12/11/24, then pasture exposed to Monument J338 from 12/20/24 to 2/24/25. Safe in calf.

- I would consider X51 a legend. Ideal cow size fleshing ability and functional udder. 815F has passed all our tests and offered with confidence. Extra Capacity!
- Pasture exposed to Monument J338 from 12/20/24 to 2/25/25. Safe in calf.

• Is a daughter out of the great female producing bull, 1229. Which our dear friend, Michael P. Bennett, owned. 725E is pigmented in one eye and has plenty of capacity. Her udder is level and functional.
• Bred AI to 909B on 12/11/24, then pasture exposed to Monument J338 from 12/20/24 to 2/24/25. Safe in calf.

- Alexa comes from the Burns Program. Her ideal teat placement, size and length make her a favorite of mine. Easy fleshing and wide, this cow takes up a lot of real estate when walking head on or away from you.
- Pasture exposed to Monument J338 from 12/20/24 to 2/24/25. Safe in calf.

- This R117 daughter is a great representation of why we used R117 so heavy at Four B. As they say, classics never go out of style. I say good proven cattle can't be beat. She has that extra rib shape and capacity we expect from R117. Younger spring bred cows. Most likely will calve before sale.
- Bred to UPS Endure 1177.

- Lot 55
"Donor"
Lass C102
- C102 is a cow that quickly rose to the top in our herd. With no original plan to flush her, she went into our donor pen when raising her 2nd calf at 4B. We have a 178J son from her which we plan to use as a herd sire in the coming years. Stay tuned!

Lot 58

"Donor"

Kee T16

• We could write a book on this cow. Coming from our friends at CES, this embryo cow was a pick of two siblings. David Burns picked the other and flipped her around for big money. This cow has been our lead donor and has produced impeccably. Her first daughter by Mandate graces the ST Genetics page for Mandate. The Kee Family will be a staple in the Four B Program. Take the opportunity to take this donor home and flush her to make awesome heifer and bull calves. Never too much of a good thing! This 4013 has the bar raised high.

• Serviced by Cosmos 672J. Safe in calf.

• Dam of Lots 4A, 4B, 5A and 46
