H204 is a highly productive Mandate daughter with maternal power running deep in her pedigree. She's a direct descendant of 675D, who traces back to the great Dance 2042 — a cow family known for quality, consistency, and longevity. This female offers the extra look and presence that turn heads, paired with exceptional udder quality and the kind of build that lasts.

Maternal sister sells as Lot 9 and Lot 49.

Serviced AI to L III EFBEEF TALL GRASS 2017 on 12/12/24, then pasture exposed to BR E133 BELLE AIRE 1324 from 12/17/24 to 3/19/25. Safe in calf. Believed to be AI.

4134 is the real deal — she is the program. This is the kind of female we strive to produce. A Merit daughter that's flawless in her design, structure, shape and muscle mass. On paper, she's just as impressive, ranking in the top 10% of the breed for 13 traits. The kind that generates big-time figures. On the maternal side, she stems from one of the most time-tested, proven cow families to ever walk the pastures in Morrison, the legendary Dance cow family. She'll take your program to new heights.

This female won't be hard to find in Morrison. A direct daughter of the famed \$100,000 Loewen Genesis and backed by the high-powered donor N188 that originated in the CES program in Georgia. Power, maternal strength, and added carcass merit — it's all here. Who says they can't have it all? Here she is.

What a female here! You want to talk about cow power ... about adding value to a program...about putting an operation on the map, this is the kind of female that can do it. Her pedigree is rare and powerful, fusing the Merit x Genesis combo with an added shot of the N188 donor — a name that needs no introduction in the Hereford breed. Powerful on the hoof. Powerful on paper. Enough said.

4133 is a very intriguing female in her own right. She is big-footed, square-hipped, dark red and loaded with pigment. We've been nothing but impressed with our calves sired by CRR 66589 Balance 107. They are easy calving with tons of growth in a sound, functional and high-quality package. The maternal side is just as strong, as her grandam, 799E, has been an absolute slot machine and now serves as a donor at MG/4M Farms in Mississippi. Genetics, structure and performance, it's all here.

Love the look and style this female presents — balanced, eye-catching, and built right. If you want to talk about doing ability at its finest, 1129J delivers it year after year by raising a high-quality calf crop with consistency. As we've worked through this herd, one name always came up, her dam 37W, known as the Lloyd Brown cow. Year after year, 37W outproduced herself, leaving a legacy of dependable, high-quality daughters. 0071H is one beast of a female — massive in her build, bold in her design, and loaded with look. She's deep through the middle, long-hipped, and extended from end to end. Selected as a standout ET calf from the Roth dispersal, she impressed early on, especially with the strength of her bottom side, stacked with generations of /W Genetics. This female offers donor potential, combining power, presence and an impressively constructed udder with quality and balance. A big-time sale highlight that checks all the boxes.

A big-time combination female sired by the calving ease specialist H Pilot, a past high seller in the Hoffman Ranch Bull Sale. 501N is super long-bodied, attractive up front and backed by a powerful maternal line. Study her EPD profile and you'll find she's elite across the board — big-time CED, strong growth and impressive carcass and maternal value. A favorite of anyone who's visited this summer. This female is as complete as they come. Long-bodied, deep-sided and smooth-shouldered all wrapped in a dark red, eye-catching package. On paper, she's equally elite: high CED, big growth and a unique blend of maternal and carcass traits. Her dam was a sale highlight last year, commanding \$10,000 and now works in the donor pen at Whispering Wind Farms in Missouri. This is a no-miss female with all the pieces to make a lasting impact.

We couldn't ask for much more out of this highly productive 2-year-old. She's doing exactly what we want our young females to do — raise the kind of calf that moves the needle. Just look at the sale feature at her side, Lot 44A, sired by Churchill Equity. The dam of 3234, X70, was a standout in last year's sale and now works in the John Weil program in Texas. The proof is in the pudding. We are putting the ball in the winning bidder's court. Selling choice one time of the unique 2-year-old or the elite Equity heifer calf.

When I first laid eyes on 5204, I couldn't help but think about the generations of power donors stacked in her pedigree — names like 023, Dance, 79Z, and Mercedes and the impact 5204 is destined to make. She's a true highlight of the sale offering. This female represents exactly what we strive to produce, elite phenotype backed by a balanced and impressive numbers package, combining added CED, low birth, strong growth, maternal excellence and carcass merit. This group of Churchill Equity daughters marks the first ever offered at public auction, and they're worth the trip to Morrison, TN. You won't be disappointed.

3229 is another unique 2-year-old sired by our resident herd sire, Daybreak 9175, who we purchased from Fredrickson Ranch in South Dakota. We couldn't be prouder of the quality this sire group has developed into. Her dam, 651, was one of our top picks when we acquired a standout set of females from Feddes Herefords in Montana.

What a 2-year-old. We don't typically offer many, but the few we are offering this year put it all together and we're committed to selling our best. This beautifully uddered female combines big-time calving ease in a dark red, goggle-eyed package that, in our opinion, is the prototype of what a 2-year-old is supposed to look like. 391L is the natural calf out of our 675D donor and is proving to be highly maternal herself, calving at just 21 months and doing an excellent job.

0234 is a special individual. We could write a book on the impact she along with both her dam 602 and sire X51, has had on our program. Simply put, she is the program. Good-looking, functional and impeccably uddered, with longevity built in. No matter what time of year you see her, she's always right — the kind that never has a bad day.

Serviced AI to WALKER FULL CIRCLE 3511 ET on 5/22/25, then pasture exposed to DVOR 619G 933 EXPLORER 110J from 5/30/25 to 8/1/25. Safe in calf. Believed to be AI.

Yet another stylish-made, dark-colored female sired by Churchill Laredo. I'll go out on a limb and I mean a short limb, and say 5225 is the kind that helps her new owners make a name for themselves. It's in the blood. Sells open.

G3 has been a steppingstone in every program she's been part of. She originated in the Spearhead program and went on to produce multiple high sellers at Loewen Herefords, Dry Creek Farms and here at the NW. Her natural calf from three years ago was the pick of our two-year-olds and sold to 5J Herefords in North Carolina. Proven. Productive. Powerful.

Lot 105 FOUR (4) IVF EMBRYOS

0227 is a maternal machine, with fertility and doing ability that's big time. She was the past Lot 1 in the 2023 Foundations for the Future sale, purchased by Langley Farms. This female has done nothing but produce at a high level. The sire of these embryos is Red Man, the past national champion at the 2025 Cattlemen's Congress, a sire that's putting calves on the ground as good as himself. Big-time quality here. These calves will be the front pasture kind.

The dam of this set of eggs is a special, up-and-coming female. We wanted to offer our newest and freshest mating, so here's your opportunity to dive into a set out of a unique 2-year-old Houston daughter. These are sired by Stelplflug Next Step, the popular KCF Bennett Monument son and \$64,000 Genex selection from Stelplflug Cattle Co. These sexed embryos combine two powerhouses in carcass and genetic value. The guesswork is done, this is next-level potential.
