**SALE TERMS & CONDITIONS****TERMS ...** Terms of the sale are cash unless prior arrangements have been made. When making settlement, please leave specific instructions in writing for transfer and delivery.**SALE CONDITIONS ...**

- Each animal will be sold to the highest bidder. The auctioneer will settle any disputes as to bids, and decisions on such matters will be final. Each animal will be at purchaser's risk as soon as sold and will be turned over to the purchaser as soon as practicable after settlement. All announcements made from the auction block on sale day by the owner or the auctioneer will take precedence over statements in the catalog.
- Colyer Herefords will precondition and wean heifers prior to shipment.
- Buyers have the option of leaving females at Colyer Herefords and having them exhibit the heifers at the national shows.
- Buyer must insure their purchase while being in the care of Colyer Herefords.
- The total cost of exhibiting the heifer at Reno will be \$1,500 and OKC, Denver, or Fort Worth will be \$1,800 per show. This includes entries, show preparation and related show expenses.
- Due to increased feed costs, an additional \$8/day will be charged while the heifer is at the ranch, beginning November 1, 2025.
- Any banners, ribbons or hardware won will belong to the buyer.
- Buyer will take possession after the respective show and will be responsible for arranging transportation.
- Females that are sold as 1/2 interests, the costs will be split 50/50.
- Ownership choices – One-half interest vs. two retained flushes. We have found that some buyers like to own the entire animal and some like to only own one-half interest, therefore, we have come up with this concept so the buyer can choose which one they would like.
- 1/2 Interest Option: If one-half interest is chosen, the buyer will own one-half of the animal. The buyer will pay one-half of the show cost. It is the same as it has been every year on cattle where we have retained one-half interest. We will keep the female and

breed her and when flushed, send half the eggs to the new owner. Colyer Herefords will pay maintenance costs of the female after her show career. Buyer will pay for their portion of the flush cost when embryos are sent to them or we will alternate every other flush with the new owner, attempting to get equal amounts for each party. If the buyer has the ability to flush the female at their location, they can take possession of the animal and we will assume the opposite position and take one-half the embryos or alternate flushes.

- Retain Two Flush Option: If this option is chosen, the buyer will take possession of the heifer after her show career is complete. If shown, the buyer will pay full show expense. Colyer Herefords will retain the right to flush the female twice after she is in production, at the buyer's convenience, for a minimum of six No. 1 eggs.
- Colyer Herefords retains the right to one flush on all females in the auction.

**GUARANTEE ...** All cattle are guaranteed to be breeders. In case an adjustment is required, it will be made with a replacement animal of equal value to the animal in question or credit on the purchase of another animal.**GENETIC ABNORMALITIES ...** Any cattle with a questionable parentage have been DNA tested and are IEF.**BREEDING INFORMATION ...** Current breeding dates and calving dates are furnished in the catalog. Any changes will be announced sale day.**NOTE ...** Everyone attending this sale does so at their own risk. Neither the owners or their employees assume liability, legal or otherwise, for any accidents which may occur.**DELIVERY ...** Buyers are responsible for shipping expenses. We will help coordinate shipping to combine possible loads. Cattle will be kept for a reasonable length of time following the sale until delivery or pick up can be made.**ABSENTEE BIDS ...** If anyone wishes to bid and cannot attend the sale, we would accept phone bids. Phone in bids with satisfaction guaranteed. We realize everyone's busy schedule and the expense of travel. Please feel free to contact Guy or Kyle for any of the sale representatives listed. The sale will be broadcast on LiveAuctions.tv for live Internet bidding.

# 24th Annual Fall Female Sale OCTOBER 4th

at the ranch, Bruneau, Idaho

With pride, we welcome you to our 24th Annual Fall Female Sale. We firmly believe that the Hereford and Angus breeds will continue to be in the forefront of the beef industry. Angus genetics have long been the dominant breed. We believe that Herefords are at threshold of gaining even more popularity going forward. Bottom line is that the black baldy females and steers cover all the bases for producing the most profitable cattle for the commercial sector.

This sale is always bittersweet as it is always hard to part with some of our most elite genetics. We do recognize that today's buyers are very astute and demand the best females. Whether it be a new breeder or an established breeder wanting to update and bring in new genetics into their herd.

There is something for everyone in this sale. Elite show heifers, proven donors, bred heifers carrying heifer calves direct from our replacements and the freshest embryos and semen.

We welcome you to come to the ranch on sale day or any time prior to inspect the offering. Videos will be available closer to sale time on our website [www.hereford.com](http://www.hereford.com).

Pictures have to be taken in mid July during our hottest weather, and these females really come on closer to sale time.

We offer free delivery to central points throughout the US.

We feel these three sisters are some of the top show prospects we have ever offered. Who Makers out of D83 who is a full sister to Marksman. They are all unique in their build and have extreme pieces and quality. Lot 3 has the neck and features of a modern show heifer with the body and bone to match. Lot 5 is a longer spined female with a great hip and hind leg. We have lots of discussion on which of these is the best but bottom line these females will hunt.

These Liberty sisters are very much alike at this stage and it is easy to tell they are related. Both have lots of look and extension with extra bone and power. Most impressive is the way they move and glide around the pasture. They are dead level topped and up headed as they go demanding attention. Donor dam 8105 was a top selling female for \$99,000 and is still on impressive beast to look at.

These Liberty sisters are very much alike at this stage and it is easy to tell they are related. Both have lots of look and extension with extra bone and power. Most impressive is the way they move and glide around the pasture. They are dead level topped and up headed as they go demanding attention. Donor dam 8105 was a top selling female for \$99,000 and is still on impressive beast to look at.

We feel these three sisters are some of the top show prospects we have ever offered. Who Makers out of D83 who is a full sister to Marksman. They are all unique in their build and have extreme pieces and quality. Lot 3 has the neck and features of a modern show heifer with the body and bone to match. Lot 5 is a longer spined female with a great hip and hind leg. We have lots of discussion on which of these is the best but bottom line these females will hunt.

If we were betting on which two will be the next great young donors these sisters would be at the top of the list. If you are interested in ones to make cows and build a future this is where its at. They both have the color and the EPD values with some of the our best cows all in one pedigree. Donor dam 1262 was the high selling pick a year ago and she is without a doubt one of our favorite young cows. Maternal sister is an 88X daughter that sells as Lot 31. This is a family to tie to.

Here is a daughter of 8037 which is Guardian's mother. Guardian daughters are quickly becoming some of the most sought after females in the industry because of their udder quality and carcass genetics. Deep red color with extra muscle shape and look. This one could be a great breeding tool with excellent carcass and growth values.

Here is a Legion and a direct daughter of 8140 who is one of the elite carcass cows in the breed. Its hard to write a better set of numbers than this one has. From the calving ease, to the udder scores, to the carcass values, this one does it as well as any. She is heavily pigmented and short marked. We look for her to be a sale feature for cattlemen looking to blend phenotype and genotype together.

Here is a female that might fly under the radar but with her maternal cow line behind her this one will no doubt be a tool to build a program around. She has been a female that is easy to find when we are searching for high quality cattle to add to this offering. Foundation donors 4264 and 4038 are close in her pedigree.

This female has continued to impress us with her added power and shape. She is built a lot like her mother 0226 who was Denver Champion Female in 2022. Her color pattern can throw you off but when you study this one she has some extreme pieces.

We start the fall open heifers with one that was so good early this spring at weaning time. She is really starting to come back to her true form and we look for her to be a real attraction sale day. She is built well starting at the ground and when you look at her pedigree you can understand why. Her mother was Reserve Champion overall at Cattlemen's Congress and a Reserve Division winner at Junior Nationals for Cruz.

When these two sisters came into the picture pen we were all impressed how they have developed and we feel these will be in the mix this show season. They are sound moving, good looking from the side and have lots of presence. Both females have excellent numbers but lot 19 really does that part well getting all the way up to 197 \$CHB.

This is a great donor prospect with lots of high valued maternal lines in her pedigree. The dam is a full sister to donor 2052 who is represented in many pedigrees in our herd and was one of our very best 88X daughters. She is deep sided and nice sized with a balanced set of values.

We are kicking off this set of pairs with a first calf heifer that has definitely shown what she transmit to her offspring. This heifer calf at side is tremendous and we fell she will compete at a high level but this cow is something to pay attention to. 8108 daughter that is stacked with top maternal females. Don't overlook the fact that she excels in carcass superiority and indexes. Pedigree traces back three times to the maternal giant 88X.

We feel this heifer calf is one of the sale features and one that will compete at a high level not only this season but more importantly as a bred. She is so well built at the ground but still has style and presence that demands attention. She is fancy marked and still has the EPD profile to build a herd around with extra calving ease, low birth and carcass traits.

This is one of the younger heifers in the offering but she will get over that. Her pedigree tells you she will be a great breeding tool and because of her age this could be a real buy. Look at her powerful mother and with Cuda Belle as the sire we have a lot of confidence in this one.

AI Bred 04/02/2025 to C 79H SHERMAN 4202 ET, due 01/10/2026.  
 Checked Safe.

Solid younger cow here that is really hard to fault. Her heifer calf shows you what a producer she is. Nice udder, moderate sized and has many great years of production ahead of her. She is bred to the high seller from our 2025 bull sale and we feel this will be a great match.

This one could be a real buy that slips under the radar because of the depth of this offering. She is so dense and powerful yet still has look and style. She will be one of the heaviest at weaning time and we feel she will develop into a true power cow.

Cruz has asked me repeatedly why we are selling this cow. And the only good answer I can come up with is because we are trying to offer the highest quality we can. Plus she has a great heifer calf that deserves evaluated among the best. This young cow has a huge future with unlimited potential to return. She will be found on sale day.

Checked Safe Heifer Calf.

Big time female by the 2022 Denver Champion 1084. We had the misfortune of losing him as he has done a great job. This one is double bred back to Belle Air and is loaded with great maternal cattle. Outstanding individual ratios of WWR 113 and YWR 111. Top 10% for YEPD, Milk, 15% for both IMF and Ribeye, 20% \$CHB.

Here is a female with a ton of power, performance and look! She is very correct, big boned and takes a big long stride. Excellent pigment. Her mother has always been among our most popular donors and was Reserve Champion female in Fort Worth that traces back to the many time Champion Diana. We have the misfortune of losing the multi Champion bull Winchester but feel this daughter has the ability to produce excellent show cattle.
