— AT MILE HIGH —
FROZEN GENETICS SALE

JANUARY 15, 2026
2:00MT - WHISKEY // 3:00MT - AUCTION

ORR WESTERN LOUNGE & COORS FAMILY TERRACE
4TH FLOOR OF THE LEGACY - DENVER - COLORADO

THE COW POWER

Behind the 2025 WORLD CLASS BULL SALE

CHURCHILL LADY 3121L ET

This \$220,000 two-year-old breeds a lot more power than she looks like. Her two horned sons by Stanfield are as good as we have sold! Her polled son by Stanfield is unique. Her two Sherman sons are incredible prospects, and her Sherman daughter is a big time donor prospect! Her four heifer calves in the dispersal averaged \$40,000 selling to leading breeders!

CHURCHILL LADY 219K ET

Magnificent in every way! She sold for \$200,000 and she has five bulls and three heifers in this sale! Heifers by Gunsmoke and Then Some. Bulls by Oshoto and Sherman! She gives you power, the beautiful udder and 0.80 MARB!

CHURCHILL LADY 079H ET

The powerhouse dam of Serman has two terrific bulls in the sale out of Then Some and 267K and one donor prospect heifer by Then Some! Her grandsons out of Sherman are fabulous again!

BR VALIDATED B413 6035 7098

The "Super Cow" has seven fantastic bulls and one elite heifer selling! The bulls include three that are as good as she has ever had! Lot 1 by On Demand, and two Oshoto sons! 7098 breeds strong and true from generation to generation so put her genetics to work for you.

TUESDAY, JANUARY 27, 2026

DELIVERY

The buyer is responsible for all shipping costs unless other arrangements are made between the buyer and seller. Delivery is not part of the sale agreements.

PERFORMANCE INFORMATION:

All EPDs are current according to the official AHA record as of November 10, 2025 and are subject to change.

Dear Hereford Breeders and Enthusiasts,

It is with great excitement to welcome you to the 2026 edition of the Hereford Eve at Mile High Sale. One of the biggest changes you'll notice is the new location and date for this event, as we have moved this sale back to the National Western where it first began 10 years ago. With the new "Hill" facility completed, we thought it the perfect time to host this sale on the grounds of the National Western.

We would especially like to thank the outstanding breeders and consignors that have dug deep into their respective arsenals to put together a power packed sale offering. Year in and year out, this sale has proven to be the platform to present the freshest and hottest genetics within the Hereford breed as there have been multiple success stories from purchases right through this event. With the fast paced ever changing world we live in, the importance of utilizing the most elite, dominant, proven, and top tier genetics is more imperative than ever before. We strongly feel you will find just that kind of quality and opportunities while flipping through this catalog, with genetics that are sure to add value to your program and bottom line. We thank those who have supported and purchased from this sale and invite everyone to attend for what is sure to be an exciting event. We would like for you to study your operation's needs and future goals and highly encourage your inspection and attendance Thursday afternoon. Thank you in advance for your consideration, as always, if we can be of any assistance, please do not hesitate to contact us.

Respectfully,

Cody Lowderman

Justin B. Stout

HYFA DONATION LOT A HYFA DONATION LOT B

Trans Ova Genetics presents this donation for 1 certificate for \$500 towards any service provided by Trans Ova*.

These services can be performed at any of our regional or satellite centers, as well as our headquarters in Sioux Center, Iowa.

Trans Ova Genetics is the industry-leader in advanced reproductive technologies including embryo transfer, in vitro fertilization, sex-sorted semen, as well as genetic preservation and cloning services. With more than 37 years of experience, Trans Ova Genetics is the best partner to equip you with the tools you need to achieve your breeding goals. Our vision is to help clients "Multiply Success" by assisting them in increasing the genetic impact of their success in their breeding programs.

*Excludes recipient and calf products.

RIGHT TO FLUSH HERD

- The right to flush your pick of the Barnes Herefords herd ... a unique opportunity that we have not offered in several years.
- We have an impressive donor battery full of young donors from the heart of our program as well as several we have purchased this year, but we are holding nothing back. We invite you to come go through the herd and pick your absolute favorite.
- We have focused on cattle with exceptional growth, desirable udders, strong feet and legs, efficient, and easy on the eyes that also command attention when you study them on paper.
- Selling one (1) IVF flush. Seller guarantees six (6) transferrable embryos and two (2) pregnancies. Anything over 12 embryos will be split between buyer and seller.
- If buyer chooses to use our new popular RMB 8G 1904 BULLSEYE 188K ET we will provide 1 straw of semen.

RIGHT TO FLUSH HERD

- The right to flush your pick of the Brumley Farms cow herd ... without a doubt one of the most exciting opportunities we offer each year. We will hold nothing back! This is your opportunity to pick from the very heart of our program.
- This will not only include the cows already in the donor pen. We would love for you to come look through all our females, and choose from the donor pen, or choose from the best kept secrets at Brumley Farms.
- We have built a herd that focuses and stands on structural integrity, udder quality, mothering ability, and longevity. We do not focus on "just another pretty face" we focus on raising females that can raise show heifers that become real cows.
- Do not miss this opportunity, call for details.
- Selling one (1) IVF Cycle. Seller guarantees six (6) embryos and two (2) pregnancies. Anything over 10 embryos will be split between buyer and seller.
- If you choose to flush your pick to the very popular bull, Stelloflug Gunsmoke 222 ET, Brumley Farms will waive the 10 unit minimum and allow you to purchase one unit of semen for the purchased flush.

RIGHT TO FLUSH ANY TWO-YEAR-OLD IN THE CRR HERD

- A rare opportunity to capitalize on the best of the next generation at Coyote Ridge Ranch. Take a walk in our pasture and you will appreciate our balanced approach to producing some of the most impactful genetics in the breed. This set of two-year-olds is our very best to date and have been admired by some of the most astute cattlemen across the globe.
- CRR genetics have influenced landmark herds across the country and have contributed to many herds' success. It will be our pleasure to work diligently with the buyer to ensure the success of this offering.
- Guaranteeing six (6) transferable embryos with the buyer to receive everything up to ten (10) embryos. If more than ten embryos are made, then the buyer and seller will split anything over ten 50/50. In the case sexed semen is desired for the flush, then the work must be done by IVF.

- Homozygous Polled
- 2446 is has made a huge impact at DCF in a short amount of time. She is the dam of DCF 4M 2446 RED LABEL 88M ET the \$64,000 valued herd sire that recently sold in the 4th Annual Dry Creek Farms Production sale and a full sister to Red Label selling to 7 Oaks Plantation & Cattle Co. Here is your opportunity for her to do the same in your own respective program. Rose was the high selling female in the 2023 Walker Herefords "Foundations for the Future" Sale. She was flushed as a virgin heifer and bred right up the first time we bred her as well as gaining 45 days her second go around.
- 2446 is one of the biggest bodied females on the farm and is equipped with a striking look on the profile. She is a forefront in our donor program, and we are extremely excited about her future. The buyer may choose either IVF or Conventional flush. All cost associated with the flush will be the responsibility of the buyer. The buyer will be guaranteed a minimum of six transferable embryos with at least two resulting pregnancies. If more than six embryos are produced, the buyer will receive all the embryos in the flush.
- Owned by Dry Creek Farms, Pell City, AL

- One of the youngest, freshest donors walking in Thedford is this great daughter of The Profit, Eve 3320L. This heifer started strong, as the Reserve Division Heifer at the 2024 JNHE. She has started her donor career with a bang as a daughter sired by Great Plan sold for \$30,000 this past fall in Hoffman's sale. Want to see more proof of the potential of this flush? Venture to the yards during NWSS and look at the ET brothers that make up the Hoffman pen, all sired by Great Plan. This is a can't miss opportunity to get in on the most progressive genetics in the breed today.
- Selling one IVF cycle with a guarantee of six embryos.

- For their first entry in this event, Lindskov's LT Ranch is bringing their best! Blair 3005 was their pick out of this past Fall's Female Sale at Colyer Herefords for \$70,000 for half interest. This female is a sight to see, and her bull calf by Reign Maker has made the trip to the National Western.
- Blair 3005 offers breed leading EPD values and with all the pigment and color you could ask for. She goes back to a powerful maternal line of cattle as her grandmother was one of Colyer's top 88X donors, 2052.
- Selling one flush with a guarantee of six embryos.

- We were lucky enough to be the high bidder at \$30,000 on this great female this past fall. This Homozygous Polled full sister to Lincoln and Mercedes proved herself as a great producer for the Atkins/Delaney program. Elite phenotypically, & with a tremendous number profile, she's already produced a high selling son last year and a daughter sold last January in the National Western Hereford Sale. Look for another daughter in the Atkins/Delaney pen in the Yards this year.
- She flushes extremely well, and with her proven revenue potential is a can't miss. Selling one flush with a guarantee of 6 embryos and no cap!

- Here is the mating that produced JDH AH Old Fashioned 25M, the high selling Hereford bull at the 2025 National Western Stock Show. How could you ask for a more proven mating and what more can we say about 19Z. At almost 14 years of age, she continues to be a prolific producer of sticky embryos. Her sons and daughters are working as herd bulls and donor females in several states. As you look through the pedigrees of high selling cattle across the country you will find 19Z in many places. She is homozygous polled and this mating to Arlo is proven to work! Over a dozen 19Z sons and daughters have sold through National Hereford sales in Denver and OKC and averaged over \$22,000. Embryos located at Trans Ova Genetics, Sioux Center Iowa. Guarantee one 60-day pregnancy. If the buyer does not get one pregnancy, then one other embryo from this donor (if available) or a comparable donor will be provided.

- This mating is from one of our exciting young donors owned with our friends at Hoffman Ranch. The mother of these embryos is a maternal sister to the reigning Reserve National Champion Polled Female at the JNHE. One of her first daughters to sell commanded a price of \$30,000 at the Hoffman Ranch female sale this fall. This cow family also produced the top selling heifer in that same sale at \$70,000. Proud is one of the exciting young sires of the breed consistently producing high quality offspring. Here is an exciting mating with great potential. Embryos located at Trans Ova Genetics, Sioux Center Iowa. Guarantee one 60-day pregnancy. If the buyer does not get one pregnancy, then one other embryo from this donor (if available) or a comparable donor will be provided.
- These embryos are owned with Mike and Mavis Craig, Tea, S.D.

- A special opportunity to tap into some proven, yet outcross genetics by the 707 cow! She offers incredible udder quality and fleshing ability with several top end progeny working throughout the U.S. in some of the most progressive programs. The sires mated with 707 represent multi trait leaders that read with exceptional predictions for all traits. Added value, on front end genetics, Charlie believes the females will be mouthwatering and next great herd bull may very well result from these matings. Buy with confidence!
- Selling a package of 4 Non sexed embryos to each sire. Guaranteeing a pregnancy on each package if work is done by a certified tech.

CL 1 DOMINETTE 850F

- Great opportunity to acquire embryos on the high marbling Cooper cow,850F! She topped the Cooper sale a few years ago when she was purchased by Hoffman Ranch, Churchill Cattle Co., and Buford Ranch. From there she has gone on to produce outstanding progeny that have been high sellers in both Cooper and Hoffman sales. Three years ago, a daughter sold for \$23,000 in the World Class Sale for Churchill.
- Her production numbers back up her EPDs, posting progeny ratios of 3@108 for WW, 4@101 for YW, 17@102 for REA and 17@106 for IMF. Mating her to the \$50,000 Beran pick in 2025 at Holden's sale will yield progeny that is the perfect combination of tried-and-true maternal L1 excellence matched with elite carcass numbers designed for today's beef business.
- Selling three embryos with a guarantee of one pregnancy if implanted by a certified embryologist.

- 7098 was the talk of the breed leading up to the historic Churchill dispersal. With her untimely passing, this is one of the very last chances to acquire embryos out of her. There are so many high points to touch on when discussing the legacy of the 7098 female. Perhaps one of the top points is she is the lone female in breed history to place a son in each of the major bull studs. This mating to Monument keeps her legacy of producing outstanding numbered progeny.
- Selling four embryos with a guarantee of one pregnancy if implanted by a certified embryologist.

- 3277L was my choice in the World Class Dispersal and her combination of EPD profile and phenotype, it's easy to understand why. Her dam is now in production and being flushed at GKB, and her natural calf commanded \$18,000 in the dispersal.
- The projected numbers on this mating will be exceptional, herd sire or cow prospects ... either way. Several traits will be in the top 10% of the breed or better. 3277L has off the charts numbers for BMI and she has a PERFECT udder and markings.
- Selling four (4) embryos with a guarantee of one pregnancy if implanted by a certified embryologist.

- It's hard to get more proven production than this choice of matings. We don't have enough space in this catalog to talk about everything the "Mother of Herd Bulls", 45C, has done for the Hereford breed. The impact she's made in our program, as well as Atkins/Delaney, is massive. The choice on these two matings between one of the hottest performance bulls in the breed today in New Standard, or the proven performance behind Sherman will yield progeny with huge potential. The Sherman mating will yield full sibs to last year's high selling bull in Denver, Chisum.
- The New Standard mating has three and the Sherman mating has four embryos. Guarantee of one pregnancy per mating if implanted by a certified embryologist.

- What an appealing mating with breed giant Churchill Sherman who has made a splash across the country the last several months as big as any bull in recent memory and NJW Rita 79L, our selection of the 2023 Ward calf crop. 79L is a smooth made, feminine, and perfect udder and teat as you could ask for in a female. We believe this combination of those attributes mixed with Shermans power and carcass values have a chance to be a slam dunk.
- Selling four embryos with a guarantee of one pregnancy if implanted by a certified embryologist.

- Truly, the head of the spear when it comes to our donor battery at Chapman Land & Cattle. NJW Rita 24H has been the best female investment our operation has made thus far, truly one of those cows that it seems like she can't miss. The amount of body, pigment, and flexible EPD'S this female possesses makes her a jack of all trades type of breeding piece. I cannot say enough about the impact she has had and will have in our cowherd today and moving forward into the future. The sire of this mating is one of my favorite phenotypical bulls I have ever been able to see. It's always fun when you are searching for a particular type of sire and you come across an individual knowing immediately that is what we have been looking for. TH Union 528M has the color, pigment, disposition, and extreme power that we needed for our next herd bull. These genetics have the chance to make a premier breeding piece bull or female.
- Selling four IVF embryos with a guarantee of one pregnancy if implanted by a certified embryologist.

- This young donor from Colyer is one of the most exciting young females to come from Bruneau, ID. She is a full sister to the one and only Arlo, part of the 2023 NWSS Champion Pen of Bulls. From there he sold for \$165,000 for half interest to Hoffman Ranch & Buck Cattle Co. 2138 herself was a past high seller for \$195,000 for half interest in the 2022 Colyer Fall Female Sale.
- 2138's dam is one of the most prolific cows in the Hereford breed, 1311. She is responsible for over \$1,500,000 in progeny sales and the dam of some of the top herd bulls in the country such as Double Your Miles, Special Edition, among several others.
- These four sires represent the most progressive bulls you'll find in the breed today. All four offer near unmatched EPD performance to go along with exceptional phenotype. Whichever mating you choose, your revenue potential is unlimited.
- Selling choice between the four matings with a guarantee of one pregnancy per mating if implanted by a certified embryologist.

JDH AH 19Z MS RUMBLER 34J ET

- **HOMOZYGOUS POLLED.** Wow, what a mating, combining two superstars out of the Delaney / Atkins program. 34J was the \$30,000 high selling female in Genetic Opportunity Sale this fall. She is a full sister to breed greats Lincoln and Mercedes. She combines outstanding presence and phenotype with elite Genotype. On paper she offers calving ease with elite growth, top 1% BMI and top 10% Carcass. 12 traits in the top 10% of the breed. The goggle eyed homozygous polled RED HOT 43M bull is one of the most exciting young sires to come along in recent times. He sold in our 2025 Bulls and Breds Sale and is owned with GKB Cattle and Copeland and Sons.

JDH AH 8032 MS LINCOLN 125L ET

- 125L was the \$30,000 valued selection out of our 2023 Genetic Opportunity Sale going to Ollerich Brothers. She has absolutely kicked it out of the park as a donor. Her first two daughters to sell averaged over \$10,000 in our 2025 Genetic Opportunity Female Sale. Her son, JDH AH GUNSLINGER 40N ET will be our entry in the 2026 National Western Hereford Sale and he looks awesome! On paper, she puts together an elite set of figures. She is the only animal in the database with her combination of BW, YW, BMI, CHB. Both sires listed on these matings will have an immense impact on our program going forward.
- Old Fashioned is a goggle eyed homozygous polled powerhouse. He was the high selling bull in the 2025 National Western Hereford Sale at \$48,000 going to the "Old Fashioned Group". He is massive bodied, dense made with perfect feet; we cannot wait to see this first set of calves this spring.
- Red Hot is one of the most exciting young sires to come along in recent times. He commanded nearly \$60,000 in sales and is owned by Delaney Herefords, Copeland & Sons and GKB Cattle.
- Sandhill has been one of the more popular and intriguing bulls within the breed in recent memory. With an amazing EPD profile with no holes in it, this mating will yield progeny that check every box.

- 21347 really jumped out at us when we selected her for \$40,000 as our pick of Genoa's heifer pen at the 2024 National Western Hereford Sale. This Homozygous Polled Kingdom daughter is extremely attractive with extra depth of body and dark red. When you look at her on paper, her EPD profile offers breed leading performance for maternal prowess and just shy of 600 for \$BMI! She comes from maybe the greatest donor ever to walk at Genoa, 5047, that has produced top sellers for them each year.
- Mating her to the Infinity bull from Shaw should yield progeny that are trait leaders across the board in their EPD profile, as well as possessing a pedigree that is stacked with maternal greatness.
- Selling 5 embryos with a guarantee of 2 pregnancies if implanted by a certified embryologist.

K&B MS DOWNTOWN 158J

DVOR 7850 159P ORALEE 026H ET

- One of the very top maternal herds anywhere in this breed lies in Lake Andes, SD. For the first time, Boyd has brought frozen genetics to this event to allow you to tap into these outstanding maternal batteries. The first of these matings comes from the top selling bred heifer in the K&B dispersal, 158J. An MDF stylish daughter of Small Town Kid, she comes from a highly productive dam, and herself has posted progeny ratios of 107 for WW, 110 for YW, 103 for REA and 128 for IMF! This New Standard mating will offer a tremendous number package.
- The second donor featured offers a choice of two of the top Genesis sons, Generator & KSU Land Grant. Boyd has just weaned two full sibs to Generator and they were among his top performers. This 7850 daughter offers another well balanced EPD profile. Either choice of these two sires will yield extremely maternal, high performing calves.
- Selling choice between matings with four embryos per mating. Guarantee of one pregnancy if implanted by a certified embryologist.

- Here is an incredible opportunity to acquire genetics from one of our cornerstone females at Hopkins Ranch. Lizzy 101D is a former show heifer of the year and consistently stamps her calves with elite look and style. Multiple high selling females from our previous sales were daughters or granddaughters of Lizzy 101D that have gone on to be many time champions. Rustic on Lizzy is a mating we love and produced the popular horned division champion for the Hoffman Family at JNHE. Tomahawk is a sire we're using this year and expect to work extraordinarily well.
- Selling choice, 3 (3) sexed IVF embryos with a guarantee of 160-day pregnancy if implanted by a certified embryologist.

- 283H is a maternal sister to Endure and the 79Z daughter that has taken her mother's place here at NJW! Her sons and daughters are always equally as good and at the forefront of the crop. Her 2024 calves were 2025 sale features and top selling bulls, Colonel 117M, 109M, 130M and heifers 121M, 155M and 173M. Her bred heifers this fall are our top and "The Pick of our 2025 Heifers" was out of 283H and a littermate to what looks to be our 2026 bull sale features!
- We mated 283H to Deluxe K016 after seeing the incredible job he is doing around the country and think he brings in a line of high-end traits and a strong, reliable pedigree of good cattle!
- 283H flushes well and her embryos have stuck well. We planted 13 of these eggs last spring getting 10 out of 13 pregnancies.
- Selling four (4) IVF embryos with a guarantee of one pregnancy if implanted by a certified embryologist. Embryos located at Trans Ova, Washington.

- One of the most stunning 2-year-olds I think we have raised — an own daughter of 79Z and half-sister to Endure, Mighty, Heavy Duty, Forward, Revolve and Bourban, to name a few. She is soft, deep, big hipped and easy doing with a wonderful udder and top shelf EPDs. 278L is sired by our go-to heifer bull, 10H, who is out of a full sister to Historic, so loads of maternal value. At this time, we are planning to take 278L and her Deluxe bull calf to Denver.
- New Standard, a Herford 13-Trait Leader, has worked so well here. I couldn't wait to flush 278L to him! The result of this mating will carry incredible maternal and carcass.
- Exportable to Canada, Argentina and Brazil
- Selling four (4) IVF embryos with a guarantee of one pregnancy if implanted by a certified embryologist. Embryos located at Trans Ova, Washington.

WILDCAT PINA COLADA 115 ET

- Pina is sired by "High Roller" and out of the famous "Wildcat Patience". Pina was a Bred & Owned Division Champion at JNHE in Louisville, Division winner at the Indiana State Preview Show, Division winner at the Indiana State Fair. A full sister to Pina Colada was recently named the Reserve Champion Junior Heifer Calf at the 2025 Kansas City Royal Junior Show. Pina has turned into a tremendous donor and combines some of the most sought after genetics in the show ring.
- Offering 4 conventional IVF embryos sired by Marksman and 4 reverse sort sexed heifer IVF embryos sired by Red River.

- Wow, talk about a donor offering! This choice lots combines potentially the most proven maternal powerhouse in the breed today with some of the most progressive sires available. We could fill this entire catalog talking about all the different ways 79Z has impacted the Hereford breed. 79Z has been one of the most prominent Matriarch to walk in Sheridan at NJW.
- 79Z is the dam of some of the breed greats, such as Endure, Mighty, Heavy Duty, Forward, Revolve & Bourbon...just to name a few. Her sons & daughters continue to be in huge demand with a daughter selling for \$25,000 and a son selling for \$24,000 in the 2025 NJW Polled Herefords sale.
- With the sires represented in this choice mating, there is no wrong step...no choice that won't move your program forward in a big, big way.
- Selling choice between matings, 4 embryos per mating with a guarantee of one pregnancy if implanted by a certified embryologist.

SPEARHEAD 001/B27 LULU G3

- If you want to add some true carcass genetics to your herd, here's your chance. We have featured embryos from 333 in almost every Hereford Eve Sale. Tall Grass has impressive numbers and mated with the Carcass Queen is a sure-fire herd improver. Don't miss this chance to get 333 genetics in your program. Guarantee 1 pregnancy if implanted by a certified embryologist.
- For the second mating, G3 was a feature donor in our past sale going to Jonas Moya in NM. Her offspring have always created quite a stir around the ranch and in the sale ring. Red Cloud is one of the most popular bulls in the Hereford breed. Here's your chance to add pigment, power and performance with the offspring of these embryos. Guarantee 1 pregnancy if implanted by a certified embryologist.

HPH 756 LADY LUCK 5480J

- Lady Luck is a rising star in the Wildcat donor pen, combining proven pedigree, standout phenotype, and elite maternal power. Her pedigree reads like a Hereford "Who's Who," featuring High Roller, Whomaker, and Diana. In person she's equally exceptional—red-necked, goggle-eyed, deep-bodied, and structurally correct. As a heifer she was Reserve Division at NAILE and Division Champion at OKC, and in 2024 she was named Reserve Champion Cow-Calf Pair at Junior National.
- GKB saw her potential, purchasing her first flush at the 2024 Badger Southern Select Sale. Her early calves sold for \$33,000, \$17,500, and \$13,000 — proof of her transmitting ability.
- This offering includes matings to two of the breed's most exciting sires—Brandston, the reigning OKC Supreme Champion Bull, and Red Kingdom, whose offspring continue to excel. A full sibling bull to the Red Kingdom embryos was Division Champion at Junior Nationals and sold for \$30,000 at the Iowa Beef Expo.
- Selling choice of four (4) sexed female IVF embryos with a guarantee of one (1) pregnancy if implanted by a certified embryologist.

CCCC CHISUM 456M ET

- Chisum 456M was one of the talks from the 2025 NWSS when he sold for \$31,000 for half interest to Canada. Coming from the immortal 45C cow on the bottom side, he brings power & performance along with a curve bending set of EPDs. This is some of the first semen on him to sell in the U.S. Pictured here as a yearling, visit the Cane Creek website for an updated video on him.
- Selling 10 total groups of semen, 5 conventional & 5 sexed female.

- Homozygous Polled
- Red Label is an impressive individual that we are extremely excited about and will be using extensively in our program. He offers exquisite phenotype with added bone, body and power. For today's marketplace, he offers all the extra amenities when it comes to color, markings and pigmentation, as he is dark red with big red hooded eyes on both sides. Super correct in his structure with excellent feet and legs, 88M can add value to any program and will sire both bulls and females that will have added value and command top dollar. This herd sire is the outcross herd sire everyone has been looking for.
- 88M offers a very balanced EPD profile that combines moderate birth, performance, carcass merit and maternal strength. He ranks in the top 1% for both Teat and Udder EPDs; top 6% for CW, BMI and BI; top 7% for SCF; top 12% for YW; top 14% for CHB; and top 15% for SC. His donor dam was purchased as an open heifer for \$14,000 from our good friend Eric Walker in his annual Foundations for the Future Sale. She was flushed as a virgin heifer and bred right up the first time we bred her. 2446 is one of the biggest bodied females on the farm and is equipped with a striking look on the profile. She is a forefront in our donor program, and we are extremely excited about her future.
- Semen will only be sold at auction in 2026. Selling in 5 Straw Packages.

- Stinger has created a lot of stir in the country as many people are looking at him as the next sire of the "Great One". He has become one of the cornerstone herd sires at both Buck Cattle Co & Hoffman Ranch. He consistently stamps his offspring with an outstanding combination of power, substance and body, all wrapped in a structurally sound & correct package. His calves are not only impressive in terms of eye appeal and muscling, but they also exhibit flexibility, balance, and correctness that make them exceptional both in the show ring & pasture. Most recently in their fall sales, Hoffman sold a daughter for \$17,000 and another daughter sold for \$17,500 at Buck's.
- Selling semen in groups of five units.

- For the first time ever offered in the U.S., we're releasing Two exclusive semen packages of 5 straws each. Don't miss this rare opportunity, as this will be the last chance for the public to add Oculus to their tank until further notice!
- One of the most talked about pen bulls from the 2025 National Western, and the most sought after Hereford bull of the 2025 Fall shows in Canada now joins our herd sire lineup — introducing SHR 8083 Oculus 4061. Most recently, he was the Grand Champion Bull at the 2025 Ag EX in Manitoba.
- Co-owned with Twelve Oaks Land & Cattle Co. Ltd., Haroldson's Polled Herefords and Levi Rimke, Canada

- A true calving ease, heifer safe sire combining eye appeal, power and flexibility, Tohono is setting a new standard for balanced performance and phenotype. Out of a first calf heifer, he's already leading the breed in multiple EPD categories — proof that quality runs deep.
- Top 1% for MM & MG, Top 2% for CW & CHB and top 4-9% for WW, YW, TEAT, UDDR, BMI and BI.
- Balanced, phenotypically powerful and backed by breed leading data, Tohono represents the kind of Hereford genetics we are proud to stand behind. Just this past October, Tohono stood as the Grand Champion Bull at the NILE in Billings.
- Never offered to the public, selling three (3) packages of five (5) units of semen. You don't want to miss out on this opportunity!
