# Welcome

from STICKS and STONES Ranch

Welcome Cattlemen and Friends,

On behalf of our family, welcome and thank you for your interest in Sticks & Stones 2026 genetics offering. We are truly grateful for your past support, your confidence, and the opportunity to work alongside fellow cattlemen who share a commitment to strengthening the beef industry. Whether you are a longtime customer or evaluating our program for the first time, we appreciate the time you have taken to study our cattle.

At Sticks & Stones Ranch, we take great pride in the bulls we have to offer. Each one represents years of disciplined selection, careful mating decisions, and a clear vision of what practical, profitable cattle should be. We strive to produce bulls that are built with structural integrity, athleticism, and longevity, cattle that can go out and cover cows efficiently, hold up under challenging conditions, and add measurable value to your program.

We work diligently to breed cattle that combine calving ease and low birth weight with strong growth and performance. Maternal strength, udder quality, and fertility remain cornerstones of our program. We emphasize marbling, ribeye area, and yield because we understand that profitability extends all the way to the rail.

Docility, efficiency, and structural soundness are never optional traits; they are essential. We believe good cattle must be easy to handle, efficient converters, and durable enough to perform year after year.

We stand behind these bulls with confidence and gratitude. Thank you for your trust in Sticks & Stones Ranch. We look forward to visiting with you and helping you select genetics that will move your program forward.

Sincerely,

The Sticks & Stones Ranch

This is a horned Roughneck son that can truly work on most any cow. We used Roughneck on heifers for the last three years and it's worked well for us. Never had to pull a single calf out of a heifer. He's fully pigmented red to the ground and very docile.

This calf is out of one of our higher selling bulls in our sale last year that we used on heifers. He was a Roughneck son so this would be a Roughneck grandson. We like his phenotype a lot and he's one you could definitely use on heifers.

This Sherman son is our junior sale feature. Probably the thickest meatiest bull we have raised and he puts it in a package that's very easy to look at.. He's just an April calf, but he's as stout as they come. He's definitely the kind of bull we like to raise. We'll be selling half interest in him and expect to see him at a cow show or two.

Please don't disregard this young Sherman son. He's just a May baby but he's got all the parts and pieces you need in a herd sire. Big red eyes, all four red hooves and phenotypically one of the most correct bulls in the sale. Another one with big time carcass numbers and CHB.
